# Mini-Flo®

The Mini-Flo® System, sometimes called a "car kit," can be found most often lighting nighttime car interiors and other small areas. However, over the years the Mini-Flo's unique lightweight and color control features have endeared it to video and broadcast lighting designers as a cool, efficient chin light for speakers at a podium or news anchors in a TV studio. The Mini-Flo is available with single dimming ballasts, plus a choice of 9" or 12" fixture and lamp sizes. Take a look at our kits and a la carte selections below.
