### **New! Celeb® 401Q Dmx LED**

**Burbank, CA** – Kino Flo's **Celeb® 401Q LED** features tunable Kelvin from 2700 to 6500K and DMX wireless link capability.

The Celeb® 401Q is a slim, square fixture and produces soft, even True Match® light quality (CRI 95) with dial-in white light from 2700 to 6500 Kelvin, programmable presets and full-range dimming without flicker or color shift. Light levels do not change when selecting Kelvin settings. With the use of a Lumen Radio transmitter, the Celeb 401Q can be operated DMX wirelessly.

The Celeb 401Q operates on universal input from 100VAC to 240VAC or 24VDC. The fixture puts out more lumens than a 1K tungsten softlight, yet uses only 1.8A (120VAC).

The Celeb 401Q comes complete with molded accessory holders, removable gel frame and 90° honeycomb louver. A 60° honeycomb louver is also available as an accessory. The Celeb 401Q will be available September 1st, 2015 as a fixture and yoke mount kit.

Key features are:

- Kelvin presets and custom settings between 2700K-6500K
- Kino Flo True Match® color and light quality (CRI 95)
- Universal input 100VAC-240VAC or 24VDC
- Onboard and DMX dimming w/ Auto Terminate
- DMX wireless link (Lumen Radio)
- Flicker-free, dead quiet operation
- Yoke Mount and Pole-Op
