New! Celeb® 400Q Dmx LED

Burbank, CA – Kino Flo Lighting Systems has expanded its line of Celeb LED fixtures.

The new **Celeb® 400Q DMX** is a slim, square fixture and produces soft, even True Match® light quality (CRI 95) with dial-in white light from 2700 to 5500 Kelvin, programmable presets and full-range dimming without flicker or color shift. Light levels do not change when selecting Kelvin settings.

Available in July 2014, the Celeb 400Q DMX comes in Yoke Mount or Pole-Op models and operates on universal input from 100-240VAC or 24VDC. The fixture puts out more lumens than a 1K tungsten softlight, yet uses only 1.8A (120VAC)!

The Celeb 400Q is complete with molded accessory holders, removable gel frame and 90° honeycomb louver. A 60° honeycomb louver is available as an accessory. A kit will be available in a yoke mount.
