New! Celeb® 400 Dmx LED

Burbank, CA – Kino Flo Lighting Systems has expanded its line of Celeb LED fixtures.

The new **Celeb® 400 DMX** joins the Celeb 200 DMX with soft, even True Match® quality light (CRI 95) and technical innovations such as dial-in white light from 2700 to 5500 Kelvin, programmable presets, and full-range dimming without flicker or color shift. Light levels do not change when selecting Kelvin settings.

Available this April, the Celeb 400 DMX comes in Center Mount, Yoke Mount or Pole-Op models, and operates on universal input from 100VAC to 240VAC or 24VDC. The slim profile fixture produces more lumens than a 1,000W tungsten softlight and uses only 1.8A of power (120VAC) compared to 8.3A for tungsten.

The Celeb 400 comes complete with a removable gel frame and 90° honeycomb louver. A 60° honeycomb louver is available as an accessory. Kits are available in center mount and yoke mount.
