News Release

New! True Match® 26W CFL

Burbank, CA – Kino Flo's new **26W CFL** joins the award-winning True Match® line of cool, soft lights. The 26W CFL is equivalent to a 100W incandescent bulb. It was specially designed for the professional film, photography and video industry.

As with all Kino Flo's True Match® lamps, the 26W CFL is color-correct and uniquely formulated at a very high color rendering index (CRI 95) to match the spectral sensitivity curves of HD and digital film imaging equipment. The 26W CFL is energy efficient and available in tungsten and daylight, 120VAC and 230VAC.
