Lighting Systems

DIVA LITE[®] LED

With Gel presets
& Dial-in 360° Colors

Diva-Lite® LED DMX

Diva-Lite® LED has two menus, white and color. The white menu gives the user access to **Dimming**, **Kelvin** and **Green/Magenta** control channels and Kelvin range is from 2700K tungsten to 6500K daylight.

In the color menu, the Kelvin range travels from 2500K tungsten to 9900K daylight, and Kino Flo has set up a fourth channel called **Gel**. The Gel channel includes Kino Flo presets such as blue & green screen, sodium vapor, mercury vapor and over 100 well known lighting gels.

In addition, there is also a fifth channel called **Hue Angle** and sixth channel, **Saturation**. These two channels behave similarly to a traditional color wheel, where you have white light in the center, the Hue angle determines the color along a 360-degree range, and Saturation determines how much color is applied.

We also recently added Snapbag Softbox and Snapgrid accessories.

Features include:

- Tunable Kelvin 2500K to 9900K
- Dimming without color shift
- Green/Magenta control
- Kino Flo presets and Gel presets
- Dial-in color using Hue angle and Saturation control
- Universal input 100-240VAC and 24VDC
- Manual and DMX dimming w/ Auto Terminate
- DMX wireless (Lumen Radio)
- Flicker-free, dead quiet operation
- Built-in Barndoors, Honeycomb Louver, Center Mount
