New! Kino Flo Wing Mounts

Burbank, CA – Kino Flo Lighting Systems reintroduces its Universal Twist-On Mounts with a new design.

The redesigned Twist-On fixture mounts feature wing knobs for easy lock down with the same gripping power and jaws for improved fixture orientation.

The new mounts come with a choice of 3/8" pin, 5/8" Baby Receiver and 5/8" Baby Receiver Short. New mounts are available June 2017.

The new models **MTP-KW41**, **MTP-BW41** & **MTP-BW41S** replace the previous models with ratchet handles (MTP-KF41, MTP-BF41 & MTP-BF41S) and will work with new and old fixtures that have the Twist-On mating plates.
