

LITEGEAR

LITEPOWER PACK

LED LITEPOWER PACK

AN ALL-IN-ONE LITEDIMMER AND LITEPOWER KIT.

The LitePower line of power distribution has been tailored specifically to meet the demands of everyday on-set use. Ranging from individually selected power supplies, battery adapters, or cables to fully assembled, all-inclusive LitePower Packs, there is something to suit every lighting technician.

The LitePower Pack is a complete power and control kit designed to be everything you need for manual control of LED LiteRibbon™. Available in two versions, Single and Hybrid, the kits include one of our legendary flicker-free LED LiteDimmers to control your LiteRibbon™. It also contains an AC to DC power supply, extension cables and adapters, an auto/cigarette power adapter, and an alkaline battery holder. LitePower Packs are sold individually or come included in one of our LiteRibbon™ Pro Kits.
